

## What is Extended Producer Responsibility (EPR)?

EPR is an environmental management strategy mandated by the province of British Columbia. It uses Product Stewardship Programs, which are guided by the principle that whoever produces or uses a product must take responsibility for that product's environmental impact. This is why some products have an eco-fee.

### Additional Recycling Opportunities:

#### Medications & Prescriptions

Wrinch Memorial Hospital  
Pharmacy (2510 Hwy 62)

#### Cardboard

- Hazelton Bottle Depot (residential)  
- Regional District Waste  
Management Facilities (Kitwanga
